Building Brands Through Connectivity

NOVEMBER 2015 EDITION

LIGHTING.co.za

Recently launched Lighting.co.za, SA's first dedicated online lighting store, was born from a combination of a team of people who were privileged over the years to learn from the best e-commerce investors in the world, a stagnant local traditional lighting retail experience, and a frustrated consumer who just couldn't get easy access to a wide variety of cool designer lighting and accessories. Lighting.co.za helps bring accessible, cool designer lighting into the spaces you work, live or play.
